Santa Maria, CA 08/08/2016— Melfred Borzall's FastBack™ is a complete system for direct pullbacks without removing the drill head or installing a backreamer. Ideal for fiber installation where access and space are limited, and for short installations, FastBack™ enables the driller to do several bores a day and allows for multiple duct installation. Perfect for drillers who need a bigger hole but don't have time to remove the drill head and attach a reamer.

Contact MBI at 800-558-7500 or [melfredborzall.com](http://melfredborzall.com).
