### **Direct pullbacks with Melfred Borzall's FastReam™ Housing**

Santa Maria, CA 08/08/2016— Now you can do direct pullbacks without removing the drill head or installing a backreamer. Melfred Borzall's FastReam™ housing replaces the reamer to enlarge the hole during pullback. Once the pilot bore is complete, simply attach the FastReam™ blades to the housing, a Quick Swivel™ to the front blade or bit, your product to the swivel and you're ready to enlarge the hole and pull product in one direct pullback.

Contact MBI at 800-558-7500 or [melfredborzall.com](http://melfredborzall.com).
